

*Summer vacation, a time we all hold dear,  
A chance to reconnect, our loved ones are near.  
Gatherings planned, with stories untold,  
Grandparents' wisdom, worth more than gold.  
Make the most of this precious time, we say,  
Let laughter fill the parks, where children can play.  
Put down the gadgets, the screens that divide,  
Connect with your children, walk side by side.  
For these formative years, fleeting and fast,  
Memories made now, a treasure to last.*

Dear Parents

Holidays are here, the most cherished part of the year. A time for rejuvenation, for visits to relatives, and for adventures with family. Amidst the daily hustle, let's seize the opportunity to create lasting memories together.

As we embark on this summer break, let's make the most of our time together. Whether it's a stroll in the park or lending a helping hand with holiday assignments, let's cherish every moment of togetherness. Let's guide our children away from screens and unhealthy treats, towards meaningful interactions and wholesome activities. Books can spark your child's imagination and transport them to fantastical worlds. Board games will foster connections and friendly competition.

This vacation is not just a pause in routine; it's an opportunity to nurture bonds that will last a lifetime. Let's savour this precious time, gazing into the eyes of our little ones and giving thanks for the gift of parenthood. For in the years to come, they'll soar to new heights.

Looking forward to our children returning, brimming with enthusiasm to embrace their academic pursuits with zest.

*Wishing you all a safe, relaxing, and fulfilling vacation.*

Warm Regards  
Simmi Bhatia  
Principal

**ST. MARGARET SR. SEC. SCHOOL**  
D-Block, Prashant Vihar, Rohini, Delhi - 110085  
**HOLIDAY HOMEWORK 2024-25**  
**CLASS: 6**

- **Update yourself with the current events by reading newspaper daily and make a small notebook and write down the current affairs for the month of June and July.**
- **Enhance your vocabulary by conversing in English with your friends and family.**
- **Revise all the work done till date.**
- **Kindly do not purchase anything from outside. Use the materials available at home so that we can create a sustainable environment.**

**I) Brochure Designing \***

**\*Theme: "Planet vs. Plastic"\***

Design and Presentation:

- Use eco-friendly materials like recycled paper for the brochure.
- Incorporate vibrant colors, drawings, and images related to the theme.
- Ensure the layout is neat, organized, and visually appealing to capture attention.

**Brochure Content :\***

**1. Cover Page**

- Title: "Planet vs. Plastic"
- Eye-catching imagery of Earth and plastic pollution.

**2. \*Introduction:\***

Start with a powerful introduction emphasizing the critical need to address plastic pollution now. You can write suitable quotation also.

**3. \*Facts and Figures:\***

- Research and gather statistics from newspapers about plastic pollution and its impact globally.

**4. \*Types of Plastic Pollution:\***

- Explain the different forms of plastic pollution like single-use plastics, microplastics, and ocean debris.

**5. \*Impact on Environment and Wildlife:\***

- Describe how plastic pollution harms ecosystems, marine life, and wildlife.
- Share real-life examples to show the devastating effects of plastic on our environment.

**6. \*Ways to Reduce Plastic Pollution:\***

- Offer practical tips for reducing plastic consumption.
- Suggest eco-friendly alternatives and promote recycling.

**7. \*Conclusion:\***

- End with a strong message encouraging everyone to reduce plastic use.
- Provide simple actions individuals can take in their daily lives to move towards a plastic-

free future.

**Make a video in which the student has to speak on the topic "Planet vs Plastic". The video should be for 1-2 minutes and uploaded on the drive shared by the teacher.**

## **II ) Mathematical accessory**

Make any mathematical toy by using various mathematical shapes and biodegradable material. Also the toy should have mathematical concept in it.

## **III) Making of Scientific working toy by using best out of waste materials.**

- Apply sorting or separation techniques in real life situations. For example, you can imagine being responsible for recycling waste materials in your school or community. You have to identify different types of materials, such as plastics, glass, paper, and metals, and devise a sorting and separation system to efficiently manage the waste.

Create a poster using used sheet or recycled paper explaining their system and its benefits. For example:

**Note:** Holiday Homework should be submitted in the first week of July.

## **IV) Happy Crafting!!**

Using coloured plastic bottle caps make an attractive "Bottle cap frames". Picture attached for your reference. Follow the given instructions carefully to make your article. \*Size for the base board is 12 by 12 inches. \*Collect bottle caps of different colours, shape and sizes to enhance your craft piece. \*Use your creative sense to beautify it. You may make newspaper swirls as filler and give it bottle cap look incase if not able to collect more bottle caps. \*write your name, class & section at the back of your base board. \*You may use acrylic/ poster colours to beautify your work. \*Find the below pictures and find your roll number wise article.

**Figure 1: roll number 1 to 10**

**Figure 2: Roll number 11 to 20**

**Figure 3: Roll number 21 to 30**

**Figure 4: Roll number 31 to last**
