ST. MARGARET SR. SEC. SCHOOL
COMPUTER SCIENCE
CLASS VIII
SAMPLE PAPER

 Time: 1 Hr   **M.M: 25**
IMPORTANT INSTRUCTIONS
Section A: Q1 - 8   1 mark each (1 x 8=8)
Section B: Q9 - 13   1 mark each (1 x 5=5)
Section C: Q14 - 16   2 mark each (2 x 3=6)
Section D: Q17 - 18   3 mark each (3 x 2=6)

 SECTION A   **1x8=8**
 Multiple Choice Questions (Write the correct answer)

1. _____ tool helps to create a 3D shape from a face or cut a 3D shape out of your
   model.
      a. Arc tool
      b. Circle tool
      c. Push/Pull tool
2. HMD stands for_____.
      a. Head Mounted Display
      b. Head Monitor Display
      c. None
3. In _____,we can create a virtual world that users can interact with.
      a. Augmented Reality
      b. Virtual Reality
      c. Both
4. Sketchup owned by_____is a 3D Modelling Software.
      a. Timber Inc.
      b. Trimble Inc.
      c. Trimber Inc.
5. _____ tool hover over individual points and click to move them in any axes.
      a. Move
      b. Zoom
      c. Line
6. _____ method is used create models to quickly test a new product before mass
   production.
      a. RP method
      b. RPA method
      c. AR
7. Buying and Selling of goods online is called as_____.
      a. Commerce
      b. Business
      c. E-Commerce

8. _____ is a 3D modelling software used for design applications like Architectural, industrial, landscape, films and game development.

   a. SketchUp   b. Paint   c. Scratch

SECTION B   1x5=5

9. The purpose of_____ is to transfer the execution of the process from humans to robots.
10. EFT stands for_____.
11. Full form of B2C is_____.
12._____ tool is used to rotate models and roll the camera in the 3D viewport.
13._____ is the example of Intelligent apps

SECTION C   2x3=6

14. Write a short note on 3D Modelling.
15. What is Virtual Banking?
16. Define Internet of things. How does it work?

SECTION D   3x2=6

17. Explain the following tools of SketchUp:
    a. Material
    b. Arc
    c. Orbit
18. . Write the steps to add 3D text to your Project.
